HEALTHY MEALS AND CANTEEN MENU

Healthy Meals in Schools Programme (HMSP), introduced since 2011, enhance the availability of healthier food and beverage choices in schools. These healthy meals incorporate food from the four main food groups – rice and alternatives, meat and alternatives, vegetables, and fruit – with the appropriate portions of fruit and vegetables served.

In Junyuan Primary School, since 3 January 2017, we have implemented HMSP to inculcate healthy eating habits in our students. From 2023, our canteen stalls will serve set meals to the students at an average cost of: **Small (\$1.70), Medium (\$2.00) and Large (\$2.50)**. WORLD WATER DAY

World Water Day is held annually on 22 March, a day designated by the United Nations (UN) since 1993 to focus on the importance of freshwater. The theme for this year is "**Leveraging Water for Peace**", which focuses on working together to balance everyone's needs.

In Junyuan Primary School, we actively support PUB's call for water conservation and have come up with an array of activities to engage our students in learning the various ways of conserving water. We hope our students will be taking up the role of the active contributors in saving the natural resource and putting in their little effort to help build a more sustainable world for all.
